

9th Asia Pacific Conference on the Built Environment
Sustainable HVAC&R Technology
November 22-23, 2007
Bangkok, Thailand

The Asia-Pacific Conference on the Built Environment is a biennial event which is sponsored by ASHRAE Region XIII (comprising Chapters from Singapore, Hong Kong, Malaysia, Taiwan, Philippines, Thailand, and Section grouping of Indonesia).

This international conference will provide a forum for sharing of ideas, information, experiences, new developments and future prospects in the area of HVAC&R and the built environment.
