Now, we urgently call for more younger members to join us and to be trained as our Chapter leaders for the years ahead. Please do not hesitate to approach any of our BOG members if you are interested to join our team!

Exciting happenings and meaningful events are in store for all of our valued members for this current year. Act fast and catch up with the Chair, Membership Sub-committee, for those of you who still have not renewed their membership - think what benefits you may miss out soon!

For those who wish to keep abreast with the current technology in HVAC, be present at the forthcoming "Members Showcase Night". This programme is designed to accelerate the quality of membership within the Chapter, and to enhance members' effectiveness at their workplace. On that night our senior members will showcase their latest available expert technical know-how now available in the HVAC industry in Singapore. This will be in line with ASHRAE being in our forefront of our source of information, technological changes, and latest technology available in HVAC.

Arrangements are being made for you all to hear from some of the prominent Distinguished Lecturers from ASHRAE, in their areas of specialty. Plan is also on the way for an interesting technical tour, where you on your own will not have the privilege of viewing what is now available in the HVAC industry.

Watch out for such news from our own website (<http://www.ashrae.org.sg>).

We are looking forward to your continuous support to ASHRAE Singapore Chapter in the near and future years ahead.

Best Regards

David Lau
